CECS 551
Assignment 10
Total: 70 Points

General Instruction

- Submit uncompressed file(s) in the Dropbox folder via BeachBoard (Not email).

1. (70 points) Review, understand, summarize, and present research papers.

   (a) Skim through the abstracts of the main conference papers (not workshop papers) in the following conferences in recent years. (Up to two years)

      - NeurIPS
      - ICML
      - CVPR
      - ICLR
      - ICCV

   (b) Choose a paper in your interest, and register the selected paper by 'Start a new Thread' on 'Discussions-Questions-Trend in ML-Selected papers' on the Beach-Board.

   (c) If other student already registered the same paper, you can't register it. Please choose another one. Zero points will be given to the second and the later students.

   (d) Read it thoroughly, try to figure out the main objectives, the key contribution, the methods, and the experimental results.

   (e) Prepare presentation slides to summarize the paper.

   (f) Using Zoom (on the cloud, not local) or YouTube, record your presentation for 5 minutes. Do not manipulate the playing speed.

   (g) Grading criteria

      - Easy to follow and understand the presentation.
      - Showing the main objectives, key contribution, the methods, and the experimental results.
      - Presentation duration.

   (h) Copy and paste a link to your video on the comment section. (Do not submit a video file.)

   (i) Submit the original paper and the presentation slides.

   (j) Your presentation video will be shared with your class mates.
